Implementation of OSWER Directive 9283.1-06

Robert Benedetti, Acting Associate General Manager
Environmental Restoration Management
EG&G Rocky Flats, Inc.

EG&G
ROCKY FLATS PLANT
CORRESPONDENCE CONTROL

Our October 23, 1992 memorandum (ERD:SG:12232), requested that the Office of Solid Waste and Emergency Response (OSWER) Directive 9283.1-06 be implemented at Rocky Flats. The title of this directive, "Considerations in Ground-Water Remediation at Superfund Sites and RCRA Facilities - Update," directs that caution should be exercised to prevent further migration of contaminants via boreholes, especially NAPL (Non Aqueous Phase Liquids) migration.

In our memorandum, we requested that the procedure of drilling should be reevaluated based on the OSWER Directive and re-submitted to DOE for review and comment. We have yet to receive a response from this request. Therefore, we would like to receive a revised drilling procedure by January 19, 1993.

If you have any questions about this, please contact Scott Grace at extension 7199.
